

COMMERCIAL AVIATION STATISTICAL ABSTRACT

ORGANIZED BY GREG GAYDEN FROM DOT, FAA, TSA DATA

TOPICS PRESENTED IN NO PARTICULAR ORDER

ABOUT THE STATISTICAL ABSTRACT

This document was created to present a diverse and eclectic group of commercial aviation industry facts, figures, and statistics. The topics are basically picked from my own interests and curiosities, as well as ability to procure the necessary information. All data and charts have been sourced from Department of Transportation (DOT), Federal Aviation Administration (FAA), and Transportation Security Administration (TSA) publicly available data. I have only included two or three charts in this publication which are also present in my [Commercial Aviation 101](#) book as they were germane to this document as well.

The ***Statistical Abstract*** title is borrowed from a [document](#) that was produced from 1878-2012 by the U.S. Census Bureau in which raw information was presented in literally hundreds of various charts.
